**REMARKS**

Claim 1 is pending in the instant application. The rejection of claim 1 has been maintained as the Examiner suggests that arguments and evidence presented in the last response are not commensurate in scope with claims drawn to detecting "any change" in ESBPII protein levels. Accordingly, in an earnest effort to advance the prosecution of this case, claim 1 has been amended to replace the term "change" with "increase". Claim 1 as amended is commensurate in scope with arguments and evidence presented in the response filed July 26, 2004 and teachings throughout the specification, e.g. page 9, line 29, through page 10, line 3.

Applicants have also added new dependent claims 11-24 drawn to specific embodiments set forth in claim 1.

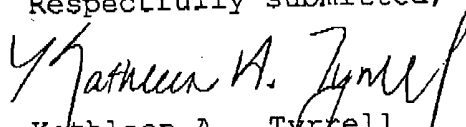

No new matter is added by these amendments and entry is respectfully requested.
